Parish Hall Improvement and Conservation Project Update 10

Conservation and Improvement Work

Week beginning Monday 9th November

This week the installation of the underfloor pipework was completed and the floor screed.

Monday 9th

Bob Short completed laying the underfloor heating pipe work, installed the manifold and pressure tested the systems. Richard Slee's team started to screed the floor. The screed work was done in two parts, starting with the south end of the Hall.

Tuesday 10th

Richard Slee's team continued to screed the floor and completed the north end of the Hall. The screed now needs some time to thoroughly dry before any more work can be carried out.

Wednesday 11th

Richard Slee's team were on site and made an excellent job of tidying the Hall and the site generally as their conclusion to this first phase of work. Thanks go to the team. They leave now to return in January for the next phase of conservation work

Parish Hall Improvement and Conservation Project

It's always so good to receive messages of support

Fantastic project, well done!
Look forward to visiting again to see progress.

Peter Heaton-Jones MP

'I would like to wish all those involved, the very best with the restoration programme and fund-raising for the Parish Hall.'

Deborah Meaden (Dragon's Den)

Hooray for the lovely volunteers!
