

AV system operating instructions.

Mode selection:

Projector with video *
(HDMI jack)

Audio only **
(red and white jacks)

Microphones only
(make sure they are
turned ON)

Press here to turn OFF system.
It takes around 3 minutes for the projector to
cool down.

Volume adjustment:

IMPORTANT;

* Plug your computer in to the HDMI jack below and set your machine to duplicate displays. Please wait at least 90 seconds for an image to appear on screen.

** Plug the 3.5mm jack plug in to your device's headphone port firmly – many cases stop the connector going in all the way!
Make sure the volume on your device is set to at least 75%.
You cannot control your device from this keypad.
